# LEADING THE WAY IN RACE TRAILERS

For over 25 years, Pace American has been a leader in the race trailer industry. Pace has a trailer for just about every car hauling need. Whether you are a weekend warrior or high mileage professional, when the road is your home it's a good feeling knowing you have the best quality, brand name trailer behind you.

We understand that when you're hauling valuable cargo, the last thing you should have to think about is your trailer. That's why we build our trailers with high-quality components and go the extra mile to ensure each trailer is safe to haul your precious cargo. From our economy car haulers to our premium race trailers, Pace trailers are just built better. Tube main rails and roof bows offer increased strength and longevity. LED lighting provides increased visibility, and all of our trailers come standard with a stoneguard for added protection. Radial tires on most models ensure a smooth ride, and a one-piece aluminum roof offers increased protection from the elements. These are just some of the many standard features that set our trailers apart. And don't forget, along with our trailers' impressive styling there's an almost unlimited array of racer-friendly options.

Our trailers are designed to be hassle-free for the long haul; but for additional peace of mind, all of our race and auto trailers come standard with a 3-year or 5-year limited warranty. Along with a high resale value, our nationwide dealer network and outstanding customer service are even more reasons you'll take pride in owning a Pace.

**CHOOSE THE RIGHT  
AUTO TRAILER FOR  
YOUR HAULING NEEDS**

Pace has a trailer for every car hauling need. Our **economy trailers** are perfect for light-duty hauling. Others may skimp on their economy lines, but our Outback models are built with tube frame, LED tail lights and a thick 3/4" high performance floor. Our **mid-line trailers** are perfect for every-day hauling and are loaded with features for exceptional value. If you are a professional racer or just want the best Pace has to offer, you may want to choose one of our **premium models**. These heavy-duty trailers are packed with the most high-end features and come standard with a limited 5-year warranty.

# THE PACE AMERICAN DIFFERENCE

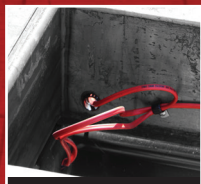

Standard on Premium Models

## 1. TUBE MAIN RAILS

Lighter than I-Beam competitors while providing more torsional rigidity. This design means our trailers will haul more and last longer. This manufacturing style is more costly than I-Beam, but your cargo is worth it.

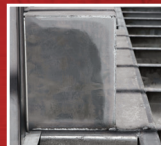

## 2. FULL HEIGHT Z-CROSSMEMBERS\*\*

Standard on all steel frames, Z-shapes maximize strength without adding weight. This provides you with a true unibody frame.

## 3. FULLY WELDED WHEELBOXES\*

Protect your valuables from the elements by tying the wheelbox to the dust-proof wall. This prevents dust and debris from blanketing your cargo.

## 4. REINFORCED PLATE\*\*

7ga steel bentline reinforces the tongue assembly to the main rail. This distributes the forces over a wider area and picks up the full strength of tube tongue members.

## 5. DUST WALL DESIGN

Featured on 8.5' models, it prevents dust and water kicked up by turbulent wind from entering the trailer and inner wall cavity. Additionally, this wall strengthens your trailer by becoming a structural component. All other models are sealed by the wall sitting on the frame rail.

## 6. TUBE ROOF BOWS

Standard on all frames, tube bows provide superior strength over hat channel bows. The crown in each bow helps shed water versus a flat roof. Crowned tube bows transfer vertical loads to the sidewall, making your trailer stronger.

## 7. ELECTRIC BRAKES

Brake connections are made with gel-coat fittings because we don't cut corners when it comes to your safety. All tandem and triple axle trailers come with two or three brake axles, unlike some of our competitors who cut costs.

## 8. TIE DOWNS

All of our recessed floor mounted D-rings are thru bolted to a frame welded solid backer (steel or aluminum). This keeps your cargo secure.

## 9. HEAVY DUTY HINGES\*\*

All ramp doors are standard with heavy duty hinges, grease zerks and a solid 3/4" steel rod for added strength.

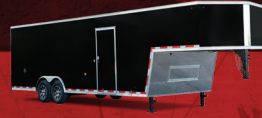

\*If equipped \*\*Steel frame only

# OPTIONS

At Pace American, your dream trailer can be a reality. Our selection of options is truly as big as your imagination. We know what racers want in a trailer, and offer thousands of options for you to customize your trailer for your specific needs. Our in-house engineering team designs innovative, proprietary options that you will only find with Pace American. Be sure to check out even more options photos on our website [paceamerican.com](http://paceamerican.com) and start designing your trailer today!

**ULTIMATE ESCAPE DOOR:** Our new, innovative, patent pending escape door provides the ultimate convenience when hauling your vehicle. Loading your vehicle has never been faster with an attached fender box that lifts automatically with the escape door. The interior camlock draws the door in and provides the ultimate in security and protection. By optioning a curbside door, you eliminate blind spots and hard corners to obtain the widest possible opening. You can load with confidence, even by yourself.

# CUSTOM

## A TRAILER FOR EVERY PASSION

We've been around the track a few times and know how to design custom trailers that work for racers. Whether you are a weekend warrior, a classic car collector, go-karter or professional racer, Pace American has the trailer you need at the right price, with the right features. From lightweight aluminum trailers to stacker car trailers, all in a wide variety of lengths, Pace has the enclosed car trailer perfect for your precious cargo. Our long list of standards and options gives you the features you need and the style you deserve.

*Pace American is a family-focused company; building industry-leading products while making safety, innovation and customer service our highest priorities.*
